F1

DREAMSEEKERCARAVANS.COM.AU

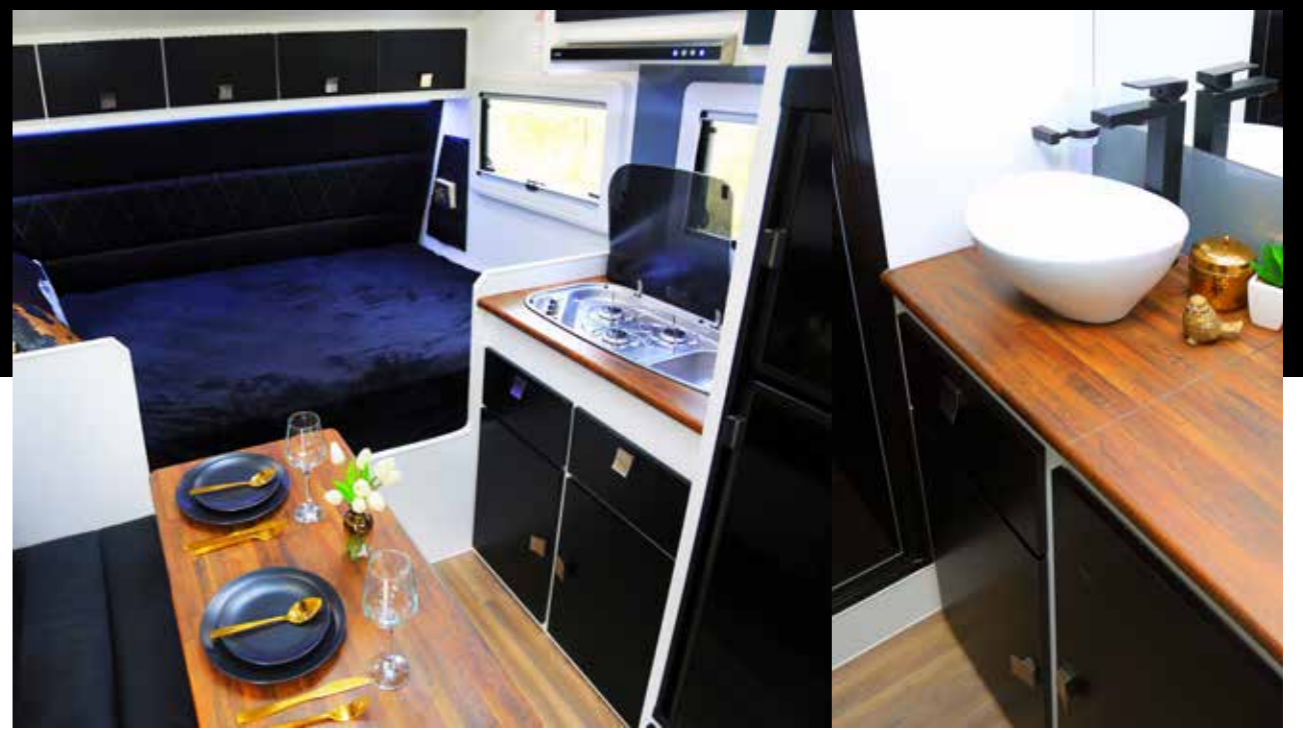

**TRUE
OFF-ROADER**

A FORMULA FOR LUXURY

A sporty exterior dominates the F1 at first glance but once inside a lavish, elegant and contemporary layout awaits. An East to West bed has the dual purpose of maximising external storage whilst also complimenting the internal layout, providing additional space inside. You would be forgiven for thinking you had walked into an up-market apartment with features such as leather upholstery, matt black tap fittings, pull lock handles

and faux wood laminate rolled bench tops throughout. A state of the art Furion stereo system is also included as standard as well as a 24 inch smart tv and RV WIFI. The kitchen is fitted with a combination cooker and sink, water filter and an acrylic splashback. And have you ever seen a 14 footer with a full size fridge and a washing machine?! Dreamseeker Caravans redefines all expectations with the imaginative and innovative F1.

SPORTY ELEGANCE

The F1 by Dreamseeker Caravans marks a new era for this highly innovative and contemporary brand. Stylish and sporty with a superb design, the F1 will take the checkered flag every time. The F1 is a beautifully versatile model packed with high-end features and finished with quality Australian craftsmanship. For performance, dynamism and contemporary comfort the F1 places Dreamseeker Caravans in poll position amongst the competition.

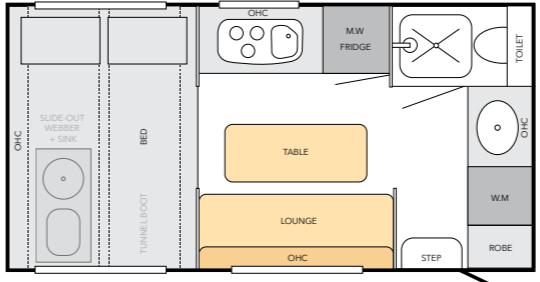

THE F1 LIFESTYLE

The F1 is first and foremost an off-road caravan made for the thrill seeker in all of us. It is constructed on a six inch Dura Gal Australian manufactured chassis. The 2.8t Tuff Ride suspension has been tried and tested on some of the most challenging terrain and it certainly lives up to its name. The F1 offers customers the ability to free camp with ease by including features such as 2 x 120 amp AGM batteries, 2 x 170 watt solar panels, 2 x 95ltr water tanks and a generator slide out. Additional features include twin gas bottles, twin jerry can holders, a dual access tunnel boot, a large toolbox, reverse camera, external entertainment hatch and an electric step. For added protection the F1 comes with undercarriage checker plate to the plumbing and checker plate to the front, sides and back of the van.

In keeping with its sporty appearance the white aluminium composite exterior is eye catching. The branding and overall design is executed with such a high level of sophistication and in particular looks stunning on the black composite panel on the back of the F1.

The Dreamseeker F1 is made for those who crave adventure, seek excitement and dare to follow their dreams. For those of you who want to explore the F1 lifestyle you can meet us at the finish line, we will be the ones leading the way.
